Issued certificates can be revoked by the Swedish Rock Engineering Association if work is not carried out professionally.

Personal data provided under "Applicant" in this document will be registered by the Swedish Rock Engineering Association in order to process the application for certification for completed training. The legal basis for the collection of this data is Legitimate Interest as the data is necessary to process the application, as well as for the issuance and registration of the certificate. The information collected will be processed by accredited training providers and by employees at the Swedish Rock Engineering Association. The information will be stored as long as it is relevant for the certification, however, no longer than 11 years. Automatic profiling and third party transfer do not occur.

Information provided under "Employer and Invoice details" is collected for the purpose of processing the application for certification. Legal basis for the collection of data is Legitimate Interest and Legal Requirement, as the data is necessary to process the application and invoicing of the certificate, and according to the 7th chapter in the Bookkeeping Act.
